

A wide-angle photograph of the Northwest A&F University campus. The main building is a large, multi-story structure with a prominent orange facade and a central glass-enclosed tower. The building is surrounded by green lawns and trees. In the foreground, there are some large, brown, rectangular structures that appear to be part of a sculpture or a modern architectural element. The sky is clear and bright.

Northwest A&F University 2025 University Scholarship Program

Northwest A&F University (NWAUFU) was founded in 1934. It is a key national comprehensive university under the administration of the Ministry of Education. Supported by the Ministry of Education's "Project 985" and "Project 211", it is one of the universities listed in the National "World-Class University and First-class Discipline" Project. At present, it has developed into an agricultural university with the most complete agricultural, forestry and water disciplines in China.

NWAUFU has 28 colleges (departments). 14 disciplines, including agricultural science, Plant and Animal Science, Engineering, Environmental Science and Ecology, Chemistry, Biology and Bio-chemistry, Pharmacology and Toxicology, Molecular Biology & Genetics, Microbiology, Geo science, Computer Science, Clinical medicine, General Social Science, and Materials science, are among the top 1% of ESI worldwide. Three disciplines, namely agricultural science, Plant and Animal Science, environmental science and ecology, ranked in the top 1‰, and agricultural science ranked in the top 0.1‰.

Through actively participating in the Belt and Road Initiative, it has gradually become a highland for China to carry out international agricultural exchanges and cooperation and serve the construction of the Silk Road Economic Belt. The Silk-road Agricultural Education and Research Innovation Alliance led predominately by NWAUFU has a profound influence. NWAUFU takes the lead in establishing 8 agricultural science and technology demonstration parks and 4 overseas talent training bases in countries along the silk road.

At present, there are 22,920 undergraduate students and 16,365 graduate students in various colleges, including 3,741 doctoral students, 12,624 master students and 428 international graduate students.
